Indianapolis, IN

## Projects

- Elmer's Express**

  - Developed and shipped a new website using JavaScript with improved performance and SEO.
  - Implemented Yelp Fusion for real time review updates to increase brand credibility.
  - Utilized GSAP for smooth animations, SCSS for styling, and ESLint for long term maintenance.
  - Deployed the website using Gatsby for fast headless CMS and Netlify for instant changes.
- NexusMD**

  - Developed a CRUD web application tailored for private medical practices using React.
  - Implemented Asynchronous JavaScript and XML for enhanced performance and response time.
  - Created a log in feature with different levels of access and permissions using Firebase.
  - Incorporated the Material UI library to create a user-centered modern design.
- Liftify**

  - Developed a mobile weightlifting companion app using Flutter SDK.
  - Implemented a database to store user information and workout data for real-time synchronization.
  - Conducted tests and debugged using Flutter Test and Driver to minimize errors.
  - Incorporated Flutter Widgets to build reusable UI components for maintainability.

## Relevant Experience

- Freelance**  
Current  
Remote

  - Designed and Developed responsive websites and web applications for clients in various industries.
  - Collaborated with clients to understand their requirements and provided solutions that met their objectives.
  - Managed project timelines, budgets, and scope, providing regular updates to clients.
- Spectrum**  
Aug 20 - Feb 23  
Evansville, IN

  - Collaborated with cross-functional teams to build user-friendly and performant web applications.
  - Developed and maintained unit and integration tests to ensure the quality and stability of web applications.
  - Worked with accessibility guidelines to ensure that web applications are accessible to all users.
  - Contributed to the development of Spectrum's design system, ensuring consistency across all web services.

## Skills

- Programming Languages**  
HTML5 CSS/Sass JavaScript TypeScript  
C# Dart
- Frameworks and Libraries**  
React Next.js ASP.NET Flutter jQuery  
GSAP.js Three.js
- Tools and Platforms**  
Git Webpack Vite Netlify Vercel Heroku  
Firebase
- Design**  
Figma Sketch Photoshop InVision

## Education

- Software Development**  
Eleven Fifty Academy | Indianapolis, IN  
Nov 2022
- Business Administration**  
Cascadia College | Bothell, WA  
Sep 2019

## Languages

- English | Native
- Spanish | Native
